

Nitza Pool News 4: January 2020

On schedule

Dear shareholders,

2 months to go and we are going to inaugurate the refurbished Pool. In this Newsletter we would like to continue to inform you of the work in progress and all the side activities which will enhance the Pool and its special ambiance. As seen already in the December Newsletter you will find pictures showing you the project's latest. Even if the pictures showing the building site may not necessarily have an aesthetic effect.

The main message: **we are on time**. Yossi, the Kablan, and his team are doing an excellent job. The building ground is always kept very tidy. Of course the weather conditions made it more difficult. In his planning Yossi had foreseen difficult days and managed to go ahead without interruption. Kol hakavod.

About the tiles

There are 4 areas we had to choose tiles for: 1. the enlarged Pool Lounge area with the table tennis table

Non-slippery ceramic tiles were laid in the Pool lounge area and the kitchen.

SAVE THE DATE

MORE INFORMATION TO COME

and the new relaxing zone. 2. the new kitchen. 3. The toilets with changing rooms. 4. the showers.

All tiles had to be non-slippery, easy to clean and be adapted to the area where they are used.

About WIFI and electricity in the Pool area

In the kitchen there will be enough power points to charge your devices.

There will be WIFI in the refurbished Pool area. Visitors will be able to use their smart phones, tablets, etc.

There will be electricity points only in the kitchen as the law prohibits power points in places where there are people with wet clothing. To recharge your devices you will have to go to Vladimir.

For the new season: a first step to unify the look of sun loungers and mattresses

Changing the current situation

Most of the sun loungers and mattresses belong to shareholders. There are mattresses in all kinds of colours and qualities as well as different types of sunloungers. To get a unified look we need to change this with the support of our shareholders:

Future situation: all the same

2 types of sun loungers/chairs: fitting the needs of the Pool visitors.

1 type of mattress in high quality fabric

We know that to achieve this unified look will take some time. Some mattresses and sun loungers will have to be replaced for the upcoming season, others will follow sooner or later. We are confident that shareholders will support our efforts and acquire the new accessories according to this model. We will help them with all the necessary information.

The immediate solution for the upcoming season: a protective cover in a nice colour and attractive design for all sun loungers

The management has almost finalised all details. In the next few weeks we shall inform the shareholders how to apply the system .

The basic structure for the new open kitchen with an adult and a children bar is finished...

...including the tiling. Next steps: doors on each side and...

...the equipment and decoration, realised by a specialised carpenter

The new Pool Lounge: quite an impressive size and future area for the Pool's entertainment programme...more details on page 4

More refurbishment pictures

2 changing rooms in each WC for men and women

Enhancing the Pool entrance area

Preparatory works for 4 storage units

All the walls underneath the new panels had to be repaired and fortified...

...inside and on the outside wall facing the parking lot - a joint project with the Vaad Habayit.

Further projects we are working on

Next to supervising the building process the Pool Vaad has a few other issues it is working on:

Identification system

Most of the accessories are supposed to carry the owner's name. There was already such an initiative long ago. However the writing has faded. We have developed a system to mark the sun loungers, the mattresses and the new covers. This will help Vladimir to identify quickly the accessories and protect them from usage by non-owners.

Priority seating for disabled visitors in wheelchairs

Knowing that they need more space, we are going to mark on two points where disabled Pool visitors in a wheelchair will have priority seating.

NITZA POOL CLUB ENTERTAINMENT

Programme 2020

The Pool Management is happy to announce that in this upcoming season there will be activities during and after the Pool opening hours. We plan:

L'Chaim Gatherings

Bingo Evenings

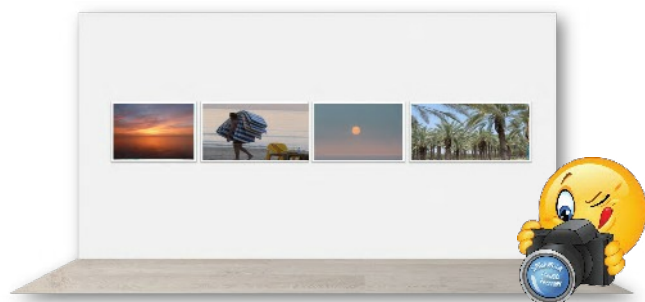

"Good to know" Lectures
about unknown
building issues -
jointly with the
Vaad Habayit

2nd Table Tennis
Tournament

New: Nitza Pool Photo Gallery with our visitors' best Israel pictures

The wall in the Pool Lounge next to the table tennis table is quite long. We had the idea to use this wall to exhibit the best Israel pictures shot by our Pool visitors. Details will be published soon.

April 1 - 16:00: Festive Opening of the Refurbished Pool - Save the Date

Joyce Berman and Lucette Medina assisted by a team of helpers will be in charge of organising this special event. The programme will be slightly different from former Season's Opening gatherings. Most important: SAVE THE DATE. More details to be published soon.

As you can see: Pool business is a challenging business. With new out-of-the-box ideas we would like our shareholders to feel the upgrade of the Nitza Pool Club.

At this stage we would like to thank Sara, Michael Bliss and Vladimir who always give us their time and lend us an ear when we need their expertise and opinion. Their experience is an important help in the process of taking decisions.

If you have questions or suggestions please do not hesitate to contact us.

We will continue to keep you posted on the progress. Make sure to be here on April 1.
