

Summer 2020 at the Nitza Pool

Dear Pool shareholders and friends

We miss all our friends from abroad. This is the time when you usually came with your family to spend your vacation. The virtual postcard (see top of the next column) we sent a few weeks ago should give you hope to resume very soon your flights to Israel.

August was always the busiest month in the history of the Pool. This year is different. For the first time in all these years we decided to open up for guests in August and made all kinds of efforts to fill the Pool as best as possible. It is well understood that we are extremely careful and that all these promotions are in line with the restrictions imposed by the Ministry of Health.

On July 9 the Pool was closed by the Police, when they classified our Pool a “public pool”. Interestingly some time ago the Ministry of Health certified the Nitza Pool as a “private pool”... and private pools were permitted to continue operating. We asked our lawyer to investigate ... but miracle, miracle - a few days later the *Knesset Corona Commission* decided to allow “pools without a roof” to reopen, stating that swimming pools are among the places with the least infections. After one more “closed” weekend our visitors could again enjoy this beautiful recreational area.

Best wishes - stay healthy

The Pool Management

David Marriott Jacques Korolnyk

Nitza Pool is WiFi connected

Installing WiFi was an important issue on our “To do” list. Now it is done. Kol Hakavod to Dan Marriott who volunteered to build up the system. The access code will be changed frequently to prevent misuse.

Cards with the current code are available at the Nitza Pool Bar counter of Vladimir and at Sara’s office.

Exercise class: a jewel in our Pool

Twice a week ladies gather for an one hour intensive aqua gym by keeping the social distance regulations. Hilary Dritz, the head of the class, has built a demanding gym programme which she teaches with charm and a lot of energy. The attendees just love it. Kol Hakavod to Hilary and all the participants.

No attendance

A well meant evening for non-shareholding apartment owners in our complex ended without any attendance.

This was the text of the invitation:

Invitation to the Welcome Evening

We cordially invite non-shareholding Residents* to the special evening

Tuesday June 30 6pm

in the new Pool Lounge.

We would like to show you the new facilities and speak about our special ideas to open the Pool for you. Join us and don't miss this opportunity. Please respond not later than **Sunday, June 28**

English speakers to David Marriott 058 455 8296

French speakers to Jacques Korolnyk 054 752 2179

* For adults only. Please wear a mask.

The Nitza Pool new kitchen: Vladimir's upgraded eatery

"I enjoy almost every day his warm soups - their smell, their texture, their variety - just as much as the taste". "At least once a week we sit in the new lounge and order his tasty and fresh healthy salads". Two statements from Pool visitors. And the kids? They love his chips... "The best" they say.

All his dairy/parve menus are prepared in a fully equipped kosher kitchen (toveled dishes - food bought at Sanz and at the market).

The Nitza Pool Bar has really improved. Enjoy your meal, now also served in the shady new lounge. Don't forget an ice cream for dessert ... why not indulge yourself with some rewarding calories

Pool security: "To govern is to foresee"

This famous quote guided all the new ideas we implemented and in particular a pronounced security mindset. Here are some more examples next to all our security related rules in connection with the Corona crisis:

1. Reactivating and upgrading the Emergency exit

There was always an emergency door heading towards building 16B. We gave it the importance it deserves, installed an electronic system opening the door towards the outside as shown in the pictures. Vladimir was instructed to check the system on a daily basis.

2. Special storage area for chemicals

3. Red lines to prevent falling over the steps

When coming out of the changing room/toilet area the strong sun light might limit the visibility on the step. The red line helps to prevent falls.

4. Handrails secure the way to Vladimir's counter

We observed that some of our visitors had some difficulties in "climbing" to the Nitza Bar counter to get their meals or coffee. We also noticed that we had to install a tool to prevent falling over the edges of the beautiful mini gardens.

5. Table tennis: preventing accidents

Playing Table Tennis? Jouer au Ping-Pong? משחקים פינג פונג?

only with/qu'avec/רק עם

The Swimming Pool Nitza Bid 10-16 Ltd, Nelanya denies all liability for accidents caused by non-compliance with the requirement to wear only GYM or TRAINER SHOES

La Piscine Nitza Bid 10 - 16 S.A., Nelanya nie toute responsabilité pour tout accident résultant du non-respect de l'obligation de porter uniquement des CHAUSSURES DE SPORT

אניה נציגות הכינה כשדרות ויצה 14 - 10 בני'ם נתניה, ישראל בשם תנאי להגשת בקב' האגודה ומפיקות הנדרשות כעוצמה מוגבלת ופנימיים עשויים מאשימת והמותרות למשחקים פינג פונג

NITZA POOL CLUB

Although the floor of the lounge is made of non slip tiles, we saw table tennis players were slipping. The reason: The table tennis table is exposed to humidity and wind carrying smallest amounts of sand. Vladimir is cleaning the floor twice a day with steam. We have also fixed a non-slip-floor band. To minimize the risk of an accident we also ask table tennis players to wear trainer/gym shoes. Do not play barefoot or with shoe models shown above and help to reduce the risk of slipping.

A few days ago we tested the new lighting installation for possible future evening activities.

How do you like Nitza Pool by night?
